

LegalHelpdesk

What it is

Legal Helpdesk is an innovative legal service that gives you access to world-class legal advice on an affordable, as-needed basis. It's specifically designed for solopreneurs and small businesses that know they need some legal support and protection, but don't have enough legal business or budget to warrant hiring an in-house lawyer.

Why you'll love it

- ✓ You get to speak to a person immediately, every time. We promise to answer you within 3 rings or give you a call back within 2 hours. No pressing "1" for English, no battling your way past the secretary, no working your way through a tree of call centre workers. Just us, ready to help.
- ✓ Fixed, affordable, totally transparent costs. No more watching the clock, no more ugly surprises on the invoice, and no long term contracts. You'll know exactly what you're paying from the beginning — and you'll pay us in a month what you'd pay an external legal team for a few hours!
- ✓ All services are tailored for your business. We really care about our clients, so we'll do whatever we can to make sure that you're protected and profitable.
- ✓ You'll have the peace of mind that comes with knowing that you have a legal safety net. Whether you're dealing with negotiations with a supplier, a customer threatening a lawsuit, or you simply need to make sure that your contracts and liability are covering you properly, we're here for you.
